**Field Day!** What's so important or special about Field Day? It gives us a chance to bring out some gear and practice one of the major aspects of Amateur Radio - Emergency Communications. Although we hope we never have the need to provide long term long range communications for the community, we owe it to them to have do some practice and be prepared. The idea is to go to the field and setup a working communications facility with multiple methods of supplying communications from our location to stations distant enough to not be affected by whatever caused our problem.

The challenge: To work as many stations as possible on any and all amateur bands (excluding the 60, 30, 17, and 12-meter bands) and in doing so to learn to operate in abnormal situations in less than optimal conditions. A premium is placed on developing skills to meet the challenges of emergency preparedness as well as to acquaint the general public with the capabilities of Amateur Radio.

How we do it? We'll setup wire antennas, portable directional antennas and vertical antennas. We erect temporary towers, run cables, and connect all this to at least seven transceivers. We'll provide operators for these stations for as many hours as the atmospheric conditions in specific locations allow signals to pass from our stations to distant stations. Because the travel of radio signals changes with the movement of the earth, we will be constantly monitoring signals and making adjustment to stay in contact with as many stations as possible. We'll setup emergency power and a distribution system. We'll log our contacts and most likely communicate with all of the 50 states. Most of those contacts to stations just like ours setup in the field with emergency capabilities. We'll have 50 or so operators over the 24 hours, and another 50 or so helpers with equipment setup, food, managing power, keeping the computer network operating, performing hospitality services for our visitors and allowing visitors to operate a GOTA (get on the air) ham station for the first time.

So come on out. Bring your friends and family. There is plenty to watch and share with youngsters or old timers. Have a good time and learn a little something about our hobby, or teach a little trick or two to the new folks. Share some stories, operating experiences, and put in some time behind the key or microphone. Help prepare the food or just come enjoy eating. It's all part of Field Day. Let's make Field Day 2007 or best and biggest ever.

With the parade, hamfests, Field Day and meetings, it looks like we'll have a busy summer. Don't forget to put in a little time on the radio. It's time to fix up the antenna system, try a new mode, upgrade the license, earn operating certificates, and take the Emergency Communications courses.

Don't forget the meeting on June 12<sup>th</sup>

## The GARZETTE

*The GARZETTE* is the official monthly organ of the Gwinnett Amateur Radio Society serving its members and other persons interested in the advancement of the amateur radio art.

Original articles, art, and photos are invited and encouraged. Previously copyrighted submissions cannot be accepted for reprinting unless permission from the appropriate publisher is provided in writing along with the information being submitted. If reprints are from publications allowing their unrestricted use, please include a copy of the printed permission contained in the publication.

If possible, bring your articles to the monthly meeting in Microsoft Word format or email to [ka4kkf@arrl.net](mailto:ka4kkf@arrl.net). Artwork can be accepted in most any graphics format and can be submitted via email to the same address. Alternate means of submittal can be arranged when necessary. In keeping with the amateur radio spirit, permission is hereby granted for the reproduction of *The GARZETTE* articles by other amateur radio club newsletters provided that proper credit is given to the individual author and to *The GARZETTE*.

## GARS Recurring Calendar

- Monthly club meeting is the 2nd Tuesday of the month at 7:30 PM. Check the Web Site for Location.
- Every Monday at 8 PM local time: GARS Want, Swap, Sell, and Information Net on the GARS 2 meter repeater
- Every Wednesday at 9 PM local time: GARS 6 meter net on the GARS 6 meter repeater
- Every Saturday at 7:30 AM local time: GARS Weekly Family Breakfast, Golden Corral Restaurant, Riverside Drive, Lawrenceville
- 20th of each month: Deadline for submittal of articles for the following month's GARZETTE

### General Meetings

June 12      September 11  
July 10      October 9  
August 14    November 13  
December 1

### We are on the internet

Check out our web page at <http://www.gars.org>  
You can find the latest news and information about the club.  
You can also find the GARZETTE.  
The home page has a link to add you to the GARS mail list at Yahoo groups.

The GARZETTE is published each month with the assistance of Hal Manning, who prints the news letter. Rick Patchin, KD4RFK does the final production work on *The GARZETTE* by folding & labeling. Bill Cherepay, WB4WTN, stamps and gets the end product to the Post Office each month. Norm Schklar, wa4zxv, manages email delivery. Many thanks to each of them and all article contributors.  
Deadline for submissions is the 20th of each month for inclusion in the following month's issue.

## May 2007 GARS General Meeting

May 8, 2007

The president, Norm Schklar, WA4ZXV, called the meeting to order at 7:30. Introductions were made.

Steve Back, WB2OGY, sponsor of Venture Crew 73, and a member of the Crew made a presentation of the blue ribbon they won at the Scout-A-Rama to Gwinnett ARES to be displayed in the ARES trailer.

Earl Whatley, AF4FG, vice president, made an announcement regarding the need for volunteers for the 15<sup>th</sup> annual Dacula Memorial Day Parade. He also stated that we hoped to have a GARS entry in the parade honoring veterans that were also hams.

Dave Bruse, W4DTR, (Program Manager) introduced Mark Fehig, WA6NGC, of Georgia Public Broadcasting who gave a very interesting program on the "tall tower" initiative in partnership with amateur radio. He also showed pictures of the damage to the GPB tower in Americus that was destroyed by the tornado this spring.

Break

## Committee Reports:

Repeater – the backup batteries at the Snellville site are almost toast and will be in need of replacement. There was also a discussion of the 6 meter repeater.

Program – a letter of thanks was received from Ms. Pat Hardin of the American Red Cross for allowing her to be on our April program.

Treasurer - Amy Woodrick, KE4IKF, gave the treasurer's report which was accepted.

Membership – three new members were presented and voted into full membership:

John Hughes, KA4ATX – General Class

John Harmon, WA4ITI – Advanced Class

Joel Barrett, W4JOL – Technician Class

## Announcements:

GARS plans to have a table at the Atlanta Hamfest, June 2. Dave Bruse, W4DTR is coordinating – contact him at [w4dtr@arrl.net](mailto:w4dtr@arrl.net) if you wish to participate.

Field Day is June 23 and volunteers are needed for the hospitality table as well as general assistance.

A chairperson for the Christmas party is needed, anyone interested please contact Norm Schklar, WA4ZXV, at [wa4zxv@arrl.net](mailto:wa4zxv@arrl.net).

Steve Back said that there is a need for someone to help re-do our posters. Earl, AF4FG, will help.

Prize drawing was held.

The meeting was adjourned at 9:08

Prepared by Randy Collins, secretary

### Have Breakfast with GARS

GARS has a social breakfast on Saturday mornings at the Golden Coral on Riverside Drive in Lawrenceville. We usually get there about 0730 and leave about 0900 or 1000. We talk radios and solve the problems of the world. We even have a qso with w4ade in Florida over echolink.

It is a great time to meet and eat. The food is very good too.

The Golden Coral is behind Pike's nursery at the intersection of Riverside Drive and Hwy 120 in Lawrenceville.

Someone will be on the repeater too.

Hope to see you there.

## Is the Coffee Ready?

By KI4MEH

Some of you could not participate in this years March of Dimes Walk (it was my first but not last) so I thought I would share the experience with you here. As with all Ham related events I found it more fun than you could have anywhere else at any price. It all started with an email from John (WB4QDX) giving the time (7:00am) and location of the event and that there was a pre event breakfast gathering at a Waffle House at 6:00am.

WAFFLE HOUSE! My pulse raced with anticipation. I had to reschedule several client appointments to get Saturday morning clear but they were all most understanding. Yes, I did play the March of Dimes card. No, I did not tell them how much fun I was planning to have.

Some of you may wonder about my excitement about a Waffle House visit since I am not currently allowed to eat anything they have. The answer is simple, good company and good conversation mixed with an unlimited amount of COFFEE! The elixir of life that makes all things possible-before noon.

Nearly everyone arrived within minutes of each other around 6:00am almost as a group. We claimed territory got seated and the waitress came over and started taking orders. Pancakes, eggs, bacon, waffles ..... and then she came to me ...."Coffee" I said ...."Just coffee?" she ask ..... "And lots of it" I said. Our eyes met and we knew no more words had to be spoken. Every time she came to our table she filled my cup which was always almost empty. And she came often. I listened as the discussions ranged from politics to cooking, motorcycles, flying, youthful indiscretions and of course Ham radio. The conversation was good, the company was the best, and the coffee was never-ending. All was right with the world. But all too soon it was time to leave.

**I must pause this story for a personal rant.** I feel I have been faithful in embracing the ham lifestyle over the last 2 years. I have gone from 0 radios to 7 radios, with another one on order, on a waiting list for another, and three others on my "want list" when I find them at the right price. I have built antennas, collected articles and parts, and have dozens of un-finished projects around the house - Only to be slapped down by Eddie (WD4JEM). At breakfast he talked about how he and a couple of others were talking on the portable repeater on the way up. It seems he already had the repeater setup and running in his car! Talk about an extreme Ham! He can travel with his own repeater. That's just not fair (but it is very cool). How is a new guy ever to catch up? Now back to the story.

### End of Rant

Everyone went out to the parking lot started their cars and left. Everyone but me. I turned the key in my car and did not even get a click. My first thought ..... "My radios still work they are on a separate battery (smile). David (KA4KKF) saw me pop my hood and stayed to make sure I got started. I jiggled a few cables and it fired right up. David (KA4KKF) said "Thank goodness". Obviously he must not have been aware that my radios had a separate power source. Before I could explain he was off to the event site and I followed.

We all got on site before 7:00am. Everyone checked out their HTs and I got to meet John's wife Sharon (who is just as nice as John). You can find a picture of her talking to Amy (KE4IKF) in with the other pictures I shot that day.

We got signed in at the volunteer desk and went over to the girl handing out the volunteer T-shirts. She looked at me ask me what size I took. I said petite ..... She tilted her head slightly to the side and got the same confused look on her face that my puppy gives me when I talk to her. I selected a XXL and moved on.

John was handing out maps and assigning locations and within minutes the professional machines that are Gwinnett ARES and GARS and other Ham volunteers were ready to deploy. It was 7:25am ..... The walk started at 10:00am. I went in search of coffee.

I found the coffee and discovered the one vital piece of field equipment forgotten at home. My car mug (I need to make a checklist). They had a stack of Styrofoam shot glasses they claimed were coffee cups. The object I was holding looked like it belonged in Barbie's Malibu Dream house. Not having a better option I sat down and started doing coffee shooters.

At 8:45am a loud noise disguised as music started and three large costumed mascots began dancing around. My signal it was time to set off to my assigned station. On the way out I shot a picture of the mascots and a group of 5 cheerleaders saw the camera and jumped into a pose so I shot them too. Little did I know at the time what an evil omen that was. I was assigned to station 9 the half way/turn around point in the walk and one of the water stations along the route where volunteers hand bottled drinks to the walkers. I got to station 9 and found a nice shady spot to park. There was a nice breeze, the birds were singing and I tuned in the repeater on my mobile to save my HT battery and listened to everyone getting setup and checking in. I started cleaning up the loose trash in my car. Something I do about once a year. Then I found and attached the mic holder kit that had been sliding back and forth on my dashboard for the past 6 months. A PROJECT COMPLETE!

My elation was to be short lived for a moment later a van pulled up and out bounced 15 cheerleaders. They actually bounced ..... and jumped and twirled. But worst of all they talked. What they said appeared to be some sort of code as the words seemed to be English but no logical content could be discerned. And they all talked at the same time at a speed and pitch that produced a frequency wave that could jam an entire band. Desperately I tried adjusting my

squelch knob but it had no effect on the cheerleaders. My salvation came when they moved a few hundred feet down the road to get warm in the only sunny spot in the area. They were there to hand out drinks and cheer the runners/walkers on, so there was the promise of much amusement ahead.

At 10:00am my HT came alive with the message that the Runners/Walkers had started. At 10:10am a call went out for the pickup van to pickup a participant that was all done in. The first casualty of many.

Around 10:30am the first runners reached my station and some real fun began. It seems that the runners/walkers having passed several water stations were almost all already carrying one or two water bottles. This did not deter the cheerleaders who scooped up armloads of drinks and charged the crowd looking for those in need of hydration. They were not to be denied their chance to render aid.

The scene reminded me of those shows on the Nature Channel where a pack of wolves descends on a flock of sheep trying to pickoff the weak. I was not alone in my assessment. An elderly lady who already had two bottles of water took a third when a pair of cheerleaders sprang at her from different directions. The look on the ladies face could only be described as "please don't eat me".

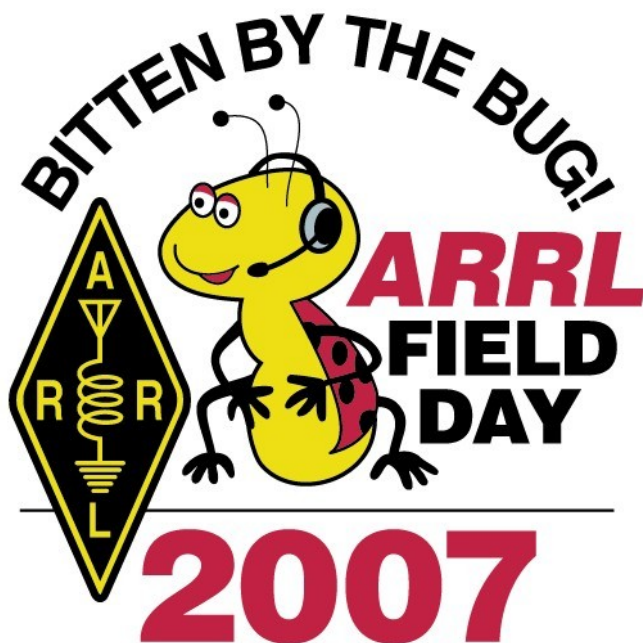

Between waves of walkers/runners the cheerleaders practiced cheers and routines. Doug (KB6RRX) stopped patrolling on his scooter long enough to get the cheerleaders to pose for a picture with him.

At one point the cheerleaders created a small human pyramid. As I looked up at the girl on top in her short skirt, perfect tan, with her arms stretched skyward I could not help but think "if she was holding the center of my portable dipole (inverted V) I could work some serious HF ..... I wonder which way is north?" As I searched my pockets for a compass another wave of walker/runners came around the corner and the wolves were again off after the flock.

The walkers/runners came in all shapes and sizes. From the very young (or those younger than me) to the very old (or those older than me). Mothers with strollers, dogs that brought their humans, teens pretending to be normal, adults trying to act responsibly and everyone enjoying a great day and a good cause.

As the last walker past each station on the return leg each Ham was cleared to return to the parking area for the final gathering. Since I had to jiggle cables again to get my car started I decided not to stop at the parking area but just head on out. I said my goodbyes on the radio and let everyone know I was clear of the area.

On the ride back I left my HT on and tuned to the portable repeater and set my mobile to the GARS repeater. Just then I got a call on my cell phone from the one client I still had scheduled for that afternoon. They were unable to get their data backup complete so I could look forward to 4 hours of data recovery added to the end of my day, putting me home about 10:00pm. I just smiled and said fine. I felt like I had just come off a long vacation as I listened while each Ham volunteer gave his final to clear the area only to pop up shortly on the GARS repeater and join in on a rapidly expanding round table that sounded like the breakfast conversations never ended. I just listened to my chosen community and smiled.

## Monday Night Net Script

**This is a suggested script only. If you are familiar with the net and have your own style, please feel free to continue. ALL CAPITALIZED (RED) LINES ARE DIRECTIONS FOR NET CONTROL EVERYTHING ELSE SHOULD BE READ. FEEL FREE TO MAKE CHANGES AS APPROPRIATE.**

CQ.....CQ.....CQ.....CQ

This is (call sign), (phonetically), (name), with the Gwinnett Amateur Radio Society Monday night Want, Swap, Sell and Information net. This net meets every Monday night at 8PM, to help keep amateur radio operators up to date on events and news and allows participants a chance to offer items for sell, trade.

You do not have to be a member of GARS to participate in this net, and all are welcome to join in. This is not an emergency net, however, if there is any emergency traffic during the net, please inform net control by saying "BREAK BREAK" and your call sign, and the net will handle the emergency traffic as required.

The Gwinnett Amateur Radio Society is an amateur radio club serving Gwinnett County, Georgia, in the North Metro Atlanta area. We are a Special Service club affiliated with the [ARRL](http://ARRL). With over 130 members, GARS is an active part of the Amateur Radio community, and plays an important role in Gwinnett County. We invite you to join us at our next meeting to learn more about us. To learn more about the Gwinnett Amateur Radio Society, please visit our web site at [www.gars.org](http://www.gars.org).

When checking in net control asks that you give your call sign once, then again phonetically, and then your name and location. Also, while checking in, please inform net control if you have any swap shop items or announcements.

Remember that to check into our net you do not have to be a member of Gwinnett Amateur Radio Society to check-in.

When checking in, please key down and say "THIS IS", then un-key and listen for others. If you don't hear anyone else doubling, key down and check in. Net control will now take check-ins in the following order:

First: Short Timers, Mobile or Low Power stations.

Second: Officers and Committee Chairs.

Third: Announcements, want, swap, trade items.

Fourth: General Check-ins.

### CHECK-INS

We will now take Short Timers, Mobile, or Low Power check-ins.

**TAKE CHECK-INS AND RECORD THEM IN YOUR LOG. PAUSE EVERY FEW CHECK-INS AND VERIFY THE CALL SIGN, NAME AND LOCATION OF EACH CHECK-IN.**

We will now take check-ins from Officers or Committee Chairs ONLY

**TAKE CHECK-INS AND RECORD THEM IN YOUR LOG. PAUSE EVERY FEW CHECK-INS AND VERIFY THE CALL SIGN, NAME AND LOCATION OF EACH CHECK-IN.**

### SWAP, TRADE, ANNOUNCEMENTS

We will now take check-ins from anyone with an item to swap, trade or a want and announcements.

**TAKE CHECK-INS AND RECORD THEM IN YOUR LOG. PAUSE EVERY FEW CHECK-INS AND VERIFY THE CALL SIGN, NAME AND LOCATION OF EACH CHECK-IN.**

**PAUSE FOR CHECK-INS**

**GO TO THE TOP OF THE LIST AND ALLOW THOSE THAT CHECKED IN TO MAKE THEM.**

Acknowledge each check in by call sign and allow them to make their announcement.

**AFTER ALL ANNOUNCEMENT, ASK IF ANYONE NEEDS FILLS OR REPEATS ON THE ANNOUNCEMENT THEN THANK THE CHECK-IN FOR THE ANNOUNCEMENT.**

### GENERAL CHECK-INS

**AFTER ALL ANNOUNCEMENTS HAVE BEEN MADE PAUSE FOR ADDITIONAL CHECK-INS**

Net control (Call Sign) will now take general check-ins. When checking in, please key down and say "THIS IS", then un-key and listen for others. If you don't hear anyone else doubling, key down and check in.

### CONCLUSION

**NET CONTROL SHOULD RECAP THE ANNOUNCEMENTS FOR LATE CHECK-INS**

Net control (Call Sign) will now recap the announcements.

**IF NONE, CONCLUDE THE NET.**

This is (call sign), (name) and I will be closing the net at (time) and returning the repeater back to normal use.

Officers and Committee Chairs of GARS would like to thank all of you for checking in and would ask that you join us here next week at 8:00 pm. Until then 73 this is (call sign) (name) clear.

Do you know a boy or girl  
14 to 21 years old  
who wants to:

Climb, Hike  
Canoe, Camp  
Talk on an amateur radio  
Have Fun  
Tell them about

## Venture Crew 73

**We meet the second Tuesday  
of each Month at 7:00PM  
prior to the GARS meeting at  
St. Marguerite D'Youville  
Church..**

**GARS Specialist  
Top Negotiator  
Top Agent**

Helping "HAMS" with the Sale and  
Purchase of their properties takes  
Extra Time, Effort and Dedication.  
Not every agent is willing to make  
that Commitment.

Call me for when You or Your Friends  
and Family are ready to Make a Move.
